

The Environment

C.J. Duffey Paper Company is committed to representing those companies that preserve and protect the environment. The mills we represent support initiatives like SFI and FSC.

SFI certified products are produced at mills that utilize fiber certified by the Sustainable Forestry Initiative (SFI) program. Fiber coming from this program is certified based on a comprehensive system of principles, objectives, and performance measures developed by professional foresters, conservationists and scientists that combines the perpetual growing and harvesting of trees with the long-term protection of wildlife, plants, soil and water quality. Under the SFI program, participating companies plant or grow more trees than are harvested each year. C.J. Duffey Paper is now SFI chain of custody certified. PwC-SFICOC-305.

The Forest Stewardship Council (FSC) is an international organization whose mission is to promote responsible management of the world's forests. FSC certified products are manufactured from FSC certified paper products by mills that utilize fiber certified by the FSC.

C.J. Duffey Paper is FSC Chain of Custody certified.
SW-COC-001834.

We urge all of our customers in supporting those companies that demonstrate environmental responsibility. For more information regarding environmentally friendly papers, call your Duffey Paper sales representative today.
